AGB-ADNE-USA

THE DIA FACTOR

INSTRUCTION BOOKLET

WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.

# IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions Altered vision Eye or muscle twitching Involuntary movements Loss of awareness Disorientation

To reduce the likelihood of a seizure when playing video games:

- 1. Sit or stand as far from the screen as possible.
- 2. Play video games on the smallest available television screen.
- 3. Do not play if you are tired or need sleep.
- 4. Play in a well-lit room.
- 5. Take a 10 to 15 minute break every hour.

# **WARNING - Repetitive Motion Injuries**

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore white playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

# **WARNING - Battery Leakage**

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nicket cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may
  become dim, the game sounds may become weak, or the display screen may be blank. When this happens,
  promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the
  correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

## DNA DISASTER!

A storm is brewing over Isla Sorna. Threading in and out of the lightning-laced clouds, an InGen Corporation plane makes its way toward the landing strip. Hammered by fist-like winds, the plane struggles and disappears.

A few days later a search party hacks its way to the wreckage in the thick jungles of Isla Sorna. Only pieces of the wrecked aircraft can be found – its precious cargo of DNA capsules has

been scattered far and wide across the remote tropical outpost. Isla Sorna is ground zero for InGen's fantastic experiments with prehistoric predators. Mark Hanson and Lori Torres have been hand picked to retrieve the lost DNA.

Take on the dangerous destiny of Mark or Lori. Scour the jungles, trails and experimental areas of Isla Sorna, avoiding or incapacitating rampaging raptors while recovering the lost DNA. Once it's collected, you must then combine the scattered DNA to create new dino species.

SELECT Not used

L Button Move base DNA capsule left

R Button Move base DNA capsule right

A Button Shoot DNA particle

B Button Quick DNA strand rotation

# STARTING UP

Isla Sorna and its valuable population of dinosaurs must be preserved! Your mission is twofold:

 Search all the areas of Isla Sorna to collect the scattered DNA particles and base DNA capsules.
 What makes this mission so dangerous is that you must avoid or incapacitate roaming dinosaurs – which may consider you a delectable dinner!

 After clearing a level, if you've collected enough DNA samples, you will return to the DNA Lab and combine the DNA particles and base DNA capsule you've recovered to generate another dinosaur species. Failing to correctly complete the DNA strand will jeopardize the entire mission!

# GAME MODE MENU

Use the Control Pad to select an option, and press START or the A Button to proceed. Press the B Button to cancel any screen and return to the previous screen.

#### New Game

Start a new game by selecting a file position. Your character selection and game progress will be saved as you play the game. (See pg 25 – Save)

You can save up to 3 different games. If you already have three saved games, you must overwrite an existing game in order to start a new one.

#### Cantinue

Continue a saved game by selecting a file position.

The saved games are identified by character and name.

(See pg 25 – Save)

# STARTING A MISSION Choosing Your Character

If you're starting a NEW GAME, it's time to decide who will take on the mission: Mark Hanson or Lori Torres.

(See Pg 26 - Characters)

Use the Control Pad to make your selection, and press START or the A Button. A description of your selected character will appear before the game starts. Press START or the A Button again to continue.

# Island Map - Acquiring Your Location

Use the Control Pad to move the cursor over any location marked by a waving red flag. These locations are open to you.

Note: When you begin a new game, only one location is accessible. After you clear a level and generate another dinosaur species, a new location appears on the map. Eventually, many locations will become accessible as you make headway through the game.

IMPORTANT: You can return to any accessible location to play through it again.

When the cursor is positioned over a flag, map coordinate lines appear, centered on the location. A location label also appears at the bottom right of the map. Press START or the A Button to move on into the level.

#### Oino File

You will have access to the Dino File anytime you are on the world map. (See Pg 29 – Dino File)

#### BONING UP WITH A MISSION BRIEFING

At the onset of each mission, you will be contacted with some mission details. Concentrate on what you are told – it's information essential to completing the level successfully. (If you've already absorbed the information, you can skip it by pressing START or the A or B Button.)

# DNA HUNT

Trek through the level, finding and collecting DNA particles. Obstacles and predators will make the going difficult, and you'll need to figure out how to overcome them.

Viewing the Game Screen

DNA PARTICLE COUNTERS	Blue, red, yellow and green, these keep track of the DNA particles you've recovered. You must retrieve
	enough of each type in order to get to the lab.
UPPER/LOWER TRACK	These are the two ground levels you can move on.
EQUIPPED WEAPON/ITEM	Shows the weapon or item available for you to use.
HEALTH BAR	Shows your current state of health. The bar drains
	as you take minor damage. If it empties, you lose your life and the mission fails.
SCATTERED DNA	Collect these to clear the level.

# PLAYER ACTIONS

#### JUMP

- Press the Jump button to jump straight up.
- Press the Control Pad in mid-air to veer to the left or right during a jump.

#### JUMPKILK

Press the Action button (B Button) while in mid-air to kick.

# DUCK/CROUCH

- Tap the Duck button to quickly duck in place, for example to evade a jumping Gallimimus.
- Hold the Duck button to crouch in place for a while, for example when hiding behind a bush or object.

#### EHRIWL

Hold the Duck button and use the Control Pad to crawl.

# SLIDE/ROLL

 Press the Duck button while running to slide along the track or roll under obstacles.

#### EBLLEET DNA

Simply touch any DNA particle to pick it up.

#### COLLECT INVENTORY ITEMS

 To collect weapons, items and Base DNA Capsules, you must either crouch or roll/slide over them.

#### ELIMB LAUDERS

- Stand next to a ladder and press the Control Pad up or down to climb up or down:
- Press the Jump button to drop off a ladder.

#### NAVIGATE OVERHANGS

- Jump toward a log, ledge or other overhang to grab onto it.
- Press the Control Pad up to swing up on top of it.
- Press the Control Pad down to drop off.

# USE WEAPON/ITEM

Press the Action button to use the equipped article.

## **ITEMS**

LIFE

MEAT

KNIFE

STUN GUN

BOMB

TRANQULIZER GUN

BASE DNA CAPSULE

Restores some health

Lures dinos temporarily. Can be used as bait or to appease dinos' hunger for a while

Use this to fend off small dinos, useless against bigger dinosaurs

Sends a jolt of electricity through a dino temporarily incapacitating him

Explodes with a lot of force and power

Shoots darts into the dinosaurs to put them to sleep

The final piece needed for the DNA PUZZLE. It is your primary goal in each level

Hint: The Base DNA Capsule will resonate if you have collected enough DNA.

# OMPLEAS

In the experimental research lab, you must become skilled at combining the DNA particles and base DNA capsules you've collected. Only the correct combination will generate the dinosaur species you need to proceed to the next DNA Hunt.

**Base DNA Capsule** 

**DNA Particles** 

Mitochondria

Injector

Once you've collected the required amount of DNA particles and the base DNA capsule, you're ready to put them together.

As the DNA strand starts oscillating, you must shoot the DNA particles with the injector to position them correctly in the strand.

Use the Control Pad to move the injector left/right, press the A Button to shoot the particles, and press the B Button to rotate the base DNA capsule.

Match the color coded DNA particles to the corresponding color on the Base DNA.

If you succeed, you'll generate another dinosaur species, and continue on to the next level.

Do not let the mitochondria contaminate the injector or you will have to collect new DNA Particles.

Don't fail - the entire sucess of the dinosaur research depends on your skill!

### GAME OVER

You have only one life, so make sure you're careful while exploring the island.

The game is over if one of the following things occur:

- DNA HUNT If you run out of health or fall off of a cliff.
- DNA LAB If your injector gets hit by a mitochondria or if you run out of DNA particles without completing the DNA sequence.

If this happens, you will be returned to the Island Map Screen and you can reselect a level.

# SAVING THE GAME

The game will automatically save your progress every time you complete a DNA Sequence and create a new dinosaur.

If you stop playing for awhile and continue your game at a later time, you will begin on the Island Map with your Dino File intact and will have access to the same levels as when you quit playing.

Note: You cannot save your status within a game level.

# CHARACTERS

#### MARK HANSON

Mark Hanson is a professional photographer who is looking to make his mark in the photography world by taking pictures of every species of

dinosaur in existence. His quest as a photographer keeps him going, even though he isn't as adventurous as Lori.

# MISSIONS Jungle of Giants

Collect scattered DNA while avoiding traps, pitfalls and chasms. The lay of the land can be as dangerous as the creatures that inhabit it.

#### Grasslands

Evade the galloping Gallimimus. You'll never outrun them, so you'll have to think up some other defensive measures.

# DIMD FILE

Isla Sorna is home base for herds of deadly dinosaurs. These prehistoric predators roam free in all the majesty of their primitive power and savagery. While you must avoid or tranquilize the existing jungle titans, you must also collect and combine the scattered DNA to create new species. The new dinos are then released onto the island, where they may assist your progress in later levels.

Your Dino File is your #1 research guide and friend when you need a bit of knowledge about a Jurassic species. Dinosaur morphology, habitats and behavior are some of the secrets found within the pages of the Dino File. At first, only a few dinosaurs are described. As you progress, the saurians you generate by recombining DNA will also be registered in the file.

# **Enmpsagnathus**

A crafty creature, whose small size and apparently timid nature masks a fierce temper. It attacks, often in packs, when your back is turned.

# SURVIVAL OF THE SMARTEST!

- Each level is riddled with pitfalls, chasms and traps. Each time you attempt a level, try to remember where these are and what you did to conquer them.
   Learn the level's geography, and you'll eventually make it through easily.
- Climb platforms, rock piles and other high places to evade dinosaurs.
- Sidestep behind large objects or duck to protect yourself from stampeding dinos.
   Crouch or crawl behind bushes to dodge out of sight.
- Look for items in unusual spots. They're not always where they're most easilyseen.

## LIMITED WARRANTY

Konami of America, Inc. warrants to the original purchaser of this Konami software product that the medium on which this computer program is recorded is free from defects in materials and workmanship for a period of ninety (90) days from the date of purchase. This Konami product is sold "as is," without express or implied warranty of any kind, and Konami is not liable for any losses or damages of any kind resulting from use of this program. Konami agrees for a period of ninety (90) days to either repair or replace, at its option, free of charge, any Konami product, postage paid, with proof of date of purchase, at its Factory Service Center. This warranty is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect in the Konami software product has arisen through abuse, unreasonable use, mistreatment or neglect.

THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES AND NO OTHER REPRESENTATIONS OR CLAIMS OF ANY NATURE SHALL BE BINDING ON OR OBLIGATE KONAMI. ANY IMPLIED WARRANTIES APPLICABLE TO THIS SOFTWARE PRODUCT, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE NINETY (90) DAY PERIOD DESCRIBED ABOVE. IN NO EVENT WILL KONAMI BE LIABLE FOR ANY SPECIAL INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM POSSESSION, USE OR MALFUNCTION OF THIS KONAMI PRODUCT.

Some states do not allow limitations as to how long an implied warranty lasts and/or exclusions or limitations of incidental or consequential damages so the above limitations and/or exclusions of liability may not apply to you. This warranty gives you specific rights, and you may also have other rights which vary from state to state.

If you experience technical problems with your game, please call our Warranty Services number (888) 270-7337.
